User stories Sprint 1	As a student, I want to be able to see available consultation times for a lecturer, so that I can choose a time that works for me.	As a student, I want to be able to schedule a consultation with a specific lecturer, so that I can receive guidance from the lecturer.					As a student, I want to be able to sign up for an account using my email and a password, so that I can access the features of the application	As a student, I want to be able to sign in to my account using my email and password, so that I can access my personalized content and settings	
	As a lecturer, I want to be able to specify my availability during the work week, so that students can schedule consultations during times that work for me						As a lecturer, I want to be able to sign up for an account using my email and a password, so that I can access the features of the application	As a lecturer, I want to be able to sign in to my account using my email and password, so that I can access my personalized content and settings	
Sprint 2				As a student, I want to be able to chose whether I want to create a new group or join a group for a consultation with a specific lecturer.	As a lecturer, I want to be able to cancel an upcoming consultation that I have scheduled, so that I can free up my schedule and notify the students who have already registered.	As a student, I want to be able to cancel a consultation and I want this to be reflected on both my student dashboard and the lecturer's dashboard		As a user, I want to be able to sign out of my account, so that I can end my session and protect my account from unauthorized access when I'm not using the application.	As a student, I want to be able to view a log of all actions I have taken on the website, so that I can keep track of my activity and review any issues that arise.
				As a lecturer, I want to be able to view a dashboard that lists all upcoming consultations that I have scheduled, along with relevant information, so that I can keep track of my schedule and prepare for each consultation accordingly.	As a student, I want to receive notifications if a consultation I have registered for has been cancelled by the lecturer, so that I can make alternate arrangements if needed.	As a lecturer, I want to receive notifications if a booked consultation has been cancelled by the students.			As a lecturer, I want to be able to view a log of all actions I have taken on the website, so that I can keep track of my activity and review any issues that arise.
Sprint 3				As a student, I want to receive a notification every 2 hours on the day of my consultation, so that I can be reminded of the upcoming session and prepare for it.	As a lecturer, I want to be able to modify the scheduled time and duration of an upcoming consultation event that I have organized, so that I can better accommodate my schedule and provide the appropriate amount of time for each student's consultation			As a user, I want to be able to reset my password if I forget it, so that I can regain access to my account.	As an admin, I want to be able to manage users accounts on the website.
				As a lecturer, I want to receive a notification every 2 hours on the day of a scheduled consultation, so that I can be reminded of the session and ensure that I am prepared to provide guidance and support to the students.	As a student, I want to receive notifications if there is a change in the time and duration of a consultation event that I have registered for, so that I can update my schedule and attend the consultation at the new time. The system should notify me of the change and update my schedule accordingly.			As a user of the web application, I want my password to be securely stored in the database, so that my account is protected against unauthorized access.	As an admin, I want to be able to access a log, capturing user actions on the website to monitor and control user activities effectively.
